

«A Job with Perspectives»

The Swiss Telsonic Group has been offering its industrial ultrasonic solutions through representation in Europe, America and Asia since 1966. Constant innovations help to ensure that, in many applications, Telsonic has established a lead over competitors that offers added value to customers. With over 300 highly qualified staff, the owner-managed company specialises in plastic and metal welding as well as ultrasonic cleaning and screening. TELSONIC UK was the first subsidiary established in 1977 and is based in Poole, Dorset. The range of ultrasonic welding equipment includes hand-held units, bench top systems & bespoke special purpose welding systems. In addition to this we have a range of equipment aimed at the OEM market for specialist machine builders.

We are looking for the following talents to join us

Electro Mechanical Engineer m/f/d

Poole, Dorset

THE ROLE

The successful applicant must have a soundly based electrical/ pneumatic and mechanical assembly background with experience in PLC programming an advantage, but not essential. A positive attitude to new challenges would be expected together with self-motivation and the ability to take on additional responsibilities in the future – such as service/repair of equipment, where some travelling may be involved (full driving license required).

The ideal candidate must not only be diligent and able to work independently but also a team player, flexible, and willing to be hands-on in other areas, if and when required.

ATTRIBUTES

- Self-motivation and capable of meeting deadlines
- Positive personality with a 'can-do' attitude
- Ability to work professionally alongside colleagues and customers
- Flexible and able to thrive within a busy environment
- Mechanical fitting & assembly of ultrasonic welding machines
- Mechanical fitting of small bench top systems to full bespoke machines
- Piping up pneumatics on machines
- Occasional turning/milling of parts
- Building guards from extrusion
- Running wires & cables Examples of other beneficial experience include
- Cross-discipline knowledge of control systems including an understanding of PLC and/or safety controller programming

WE OFFER

- Full product training will be given
- Clothing and safety shoes provided
- Competitive Salary
- 25 days annual leave (plus bank holidays)
- Company Pension Scheme
